

The USATF National office has prohibited the use a regional logo.

They mandate that a specific meet logo be used instead.

This is an illogical request, as the records are not records of a specific meet. Rather, they are records across many years of regional meet competition.

Consequently, to comply with the USATF prohibition of using a Region4 logo, and the inability to comply with the USATF mandate of using a meet logo, the USATF Region4 Junior Olympic Track & Field Championships Records have been removed.
